

The Reconomy Connect Portal

Waste minimisation

Time, money and effort are all precious business resources.

If 70% of your time is spent recording and collating waste data, it only leaves 30% to think strategically about how you use this information to improve your waste management procedures.

The Reconomy Connect Portal is our cutting-edge online reporting platform that allows you to devote 100% of your time to waste minimisation.

The portal maximises the strategic impact of accurate and timely waste data, without the accompanying administrative burden.

Whatever your level of responsibility, from Site Manager to Director, the Reconomy Connect Portal offers numerous opportunities to save you time, money and effort.

Unique benefits

Responsive use

The portal is optimised for mobile and tablet devices, giving you access to your data wherever you are.

SWMP

The portal features an automated online Site Waste Management Plan (SWMP) to help you minimise on-site waste.

Bespoke detail

Your intuitive portal dashboard can be tailored to the level of detail and frequency you require.

Dynamic data transfer

All portal information is uploaded quickly and efficiently, giving you fast access to everything you need.

Interactive data-led reporting

The portal will deliver updates and reports at agreed times – it will even issue reminders when updates are required.

Secure login

The portal will deliver updates and reports at agreed / scheduled times – it will even issue reminders when updates are required through its data-led reporting module.

CSR

Portal data can be imported directly into your Corporate Social Responsibility (CSR) reports.

Online ordering

You can now order additional quantities of waste containers directly through the portal for delivery to any of your existing sites, without the need to pick up the phone or send an email.

Dynamic reporting

The portal provides 24/7 monitoring on every aspect of waste management, giving you access to numerous waste reporting channels.

Each channel can be viewed holistically across all your sites and projects nationwide, or customised for a specific geographic region or individual site.

At a time when sustainability and waste minimisation are becoming embedded within business culture, the Reconomy Connect Portal is the ideal tool for any industry where waste-related costs need to be accounted for.

Reporting channels include:

- Total spend to date, per waste stream
- Tonnage reports
- Skip / container count
- Landfill diversion rates
- Segregation statistics
- Destinations of various waste streams
- CO2 carbon emissions.

Hassle-free information

The portal provides a complete audit trail of every waste movement undertaken on your behalf by Reconomy Connect, giving you complete transparency and peace of mind.

You can also access and download electronic copies of all relevant and supporting documentation, including:

- Current or historical waste transfer notes
- Proof of delivery tickets
- Compliance certificates
- Waste carrier licences
- Insurance documents
- Environmental permits.

The portal also stores all of your invoicing information, meaning you will never misplace another invoice again. The system will even email you to let you know when a new invoice requires your attention.
